

ZIMMER AUSTRIA | Kufstein

Competence Centre for Digital Printing Systems

ZIMMER AUSTRIA Kufstein | Digital Printing Systems is the digital competence centre for textile and carpet printing machines as well as the system supplier for carpet coating lines.

Our human resources are the core of our success. The **ZIMMER Academy**, our own education division, trains basically mechatronic engineers.

In our core competence, **ZIMMER AUSTRIA** Kufstein develops new fields of digital printing applications for the carpet and textile industries. Our R&D departments for software, jets, prototyping, electronics and control software are focused on continued market leadership.

The manufacturing department is equipped with the most recent CNC machinery and with self-developed fabrication machines.

Delivery Program

- **CHROMOJET** - Digital printing system for pile products
- **COLARIS** - Digital Inkjet printing system for all kinds of textiles
- **COLARIS-NF** - Digital Inkjet printing system for Narrow Fabrics
- **BCL** - Coating lines for carpets
- **SUPRAMIX** - In-line dosing and mixing systems for thickener and chemicals
- **SUPRAFOAM** - In-line foam generator with automatic dosing
- **SUPRAFIX**
- **SUPRAPRESS**
- Contract manufacturing
