### ZIMMER AUSTRIA Digital Printing Systems

the competent partner for digital printing on fiber-based substrates

Within five business segments – Textile Prints, Floor Coverings, Narrow Fabrics, Technical Textiles, and Special Solutions - we offer a wide range of digital printing solutions.

In addition to our carpet, blanket, towel, and upholstery print solutions we will introduce our latest development for digital printing of technical textiles. We will present for the first time a military camouflage printing solution incl. IR-reflectance control. A truly innovative development, perfectly matching requirements of military and paramilitary forces around the globe. Camouflage printing is not about existing patterns being reproduced digitally from traditional screen printing – digital camouflage printing can offer so much more.

Another recent development is a COLARIS digital inkjet print line for printing wool and polyamide moquette fabrics used for furnishing public transport vehicles such as buses, subways, trains, cable cars, aircrafts and cruise ships. The COLARIS inkjet printer offers an all-inline printing and finishing solution from white to ready-for-use moquette substrate, matching all fastness requirements of transport vehicles.

**ZIMMER AUSTRIA Screen Printing & Coating Systems**

at the Klagenfurt (Austria) plant we operate a technology competence center for coating, screen printing and finishing systems with decades of experience. We offer tailor-made solutions of perfectly designed coating lines that empower clients to produce outstanding results with minimal energy consumption.

ZIMMER AUSTRIA's MAGNOROLL is a multi-purpose Coating Machine for Coating, Printing, Finishing on Textiles, Technical Textiles, Glass Fiber, Nonwoven and Paper. The versatility of the MAGNOROLL multi-purpose coating platform draws much interest across industries. MAGNOROLL coating machines are available in different executions and are available in working widths from 500 to 5200 mm. MAGNOROLL coating machines and complete coating lines can be used for universal applications with liquid, paste and foam on textiles, technical textiles, glass fiber, paper, film and other innovative materials. MAGNOROLL is the only true multi-purpose coating machine in the market.

**Our team at site will be pleased to discuss any of your interest or needs for digital printing, screen printing, steaming, drying, coating, and finishing machinery!**
