

Domotex Asia / Chinafloor2017

COLARIS CARPET INKJET PRINTING

From 21st to 23rd of March 2017, the **Domotex Asia / Chinafloor** exhibition was held at the SNIEC, **Shanghai New International Exhibition Center** at Shanghai Pudong (China). **DOMOTEX Asia / CHINAFLOOR** is the leading flooring trade exhibition in the Asean / Pacific region and the second largest exhibition of its kind worldwide.

SDS, Beijing Shengdisen Science & Trading Co. Ltd., is the Number One solution supplier for the carpet manufacturing industry.

Worldwide known companies: **ZIMMER AUSTRIA**, TuftCo, Stäubli, Power-heat-set and Sellers joined the same both. These machinery manufacturers are offering the complete range of carpet printing equipment in China.

The **SDS** booth has been furnished with an interesting design combination of two different carpet constructions. They have all been printed with **COLARIS.INKJET PRINT** technology from **ZIMMER AUSTRIA**, at their customer **PXL Carpets** in Belgium.

Definition, clarity of designs, color strength and the deep penetration of ink on such a high quality carpet (1000g / 500g? impressed carpet manufacturers?visitors and the competing machine manufacturers alike.

COLARIS. TECHNOLOGY has the potential to become the industry standard for printing carpet tiles, needle punch carpets for exhibition but also high quality contract carpets.

The industry will see further results from **COLARIS.PRINT LINES** which will be put in operation in Iran, India, France, China, Germany, Belgium, Austria...etc...

COLARIS | ZIMMER AUSTRIA in DOMOTEX Asia / CHINAFLOOR 2017

The **COLARIS.PRINTER FAMILY** is not just perfect for carpet printing, but also for terry towel, PES Raschel-, Polar and Coral Fleece blanket printing. Sharp images with full penetration and strong colors make the **COLARIS** the ideal printer for any pile substrate.

Aside the promoted **COLARIS.PRINTER FAMILY**, **ZIMMER AUSTRIA** still offers the famous **CHROMOJET.PRINTER**, which is known as the work horse in many carpet printing and processing mills around the globe.
